HOW TO BE ONE?

- Use the network around you!
- Use the tools around you!
- Collaborate and create transparency

USE THE NETWORK AROUND YOU

- You are already doing that by being here, take advantage of it
- Learn, collaborate, and steal!
- Surround yourself and build a team that learns from you and importantly you learn from as well

USE THE TOOLS AROUND YOU

- Know what tools you have and what they are capable of - bridge the gaps you find
- Know how to use them properly and securely
- Al, what is it good for?

COLLABORATE AND CREATE TRANSPARENCY

- Create communication channels internally AND externally
- Educate and lead by example
- Be The Department of What Works, Spread Positivity
- Present data that drives action and decisions (and makes you look good!)
